

SUMMER 2017

Lancaster-Fairfield Community Action Recycling
Making Fairfield County Greener since 1980

Business & Industry Highlights

Business Highlight - In this edition, we're highlighting Ace Hardware in Baltimore for their recycling program that started in February. Since February of 2017, they have recycled 7,750 pounds of corrugated cardboard and counting! Each month this business continues to grow in total amounts of recycled corrugated cardboard.

They had a 70% increase in recycled cardboard from April to May! Wow! Thank you Ace Hardware for your conservation efforts and for your community support!

Industry Highlight - We would like to feature Dittmar Sales and Services in Lancaster. They provide everything from lawn mowers and chain saws, to small engine repair and blade sharpening. Dittmar Sales and Services has recycled over 2,275 pounds of corrugated cardboard and counting for the month of June! That's over one ton of cardboard! A huge thank you to Dittmar Sales and Services for reducing your carbon footprint and diverting your cardboard from the landfill!

INSIDE THIS ISSUE:

- Business, Industry and School Recycling Recognition 1
- Community News and Contact Information 2

Featured Schools

We would like to recognize Amanda Clearcreek Local Schools for their amazing recycling increase since last quarter! Last quarter, Amanda Elementary, Middle School and High School had a combined total of 7,900 pounds of recycled materials! From April to May, this school district has increased by 108% in recycled cardboard, and 325% in recycled paper materials! That's incredible! The cardboard and paper they recycle will soon be made into brand new products!

Community News

Community Highlight - This quarter, we are highlighting residents of Violet Township for using the drop off site at the Township Maintenance Building on Center Street. At this location alone, 915 pounds of aluminum cans, 4,690 pounds of glass, 46,400 pounds of cardboard, 19,200 pounds of paper and 25,650 pounds of plastic have been recycled between April and May. That's not including the three other

drop off sites located in Violet Township! Amazing! This drop off location continues to improve in the amount of recycled materials. Also, a newly approved three year contract between Local Waste Services and Violet Township will provide residents with optional services for combined trash pick up and recycling services, with container rental! Residents now have the opportunity to take advantage of curbside recycling for a very low monthly fee. What an awesome way to reduce the amount of waste going into our landfills!

Recycling 101

Is it time to clean out your garage or basement? If so, the following items below can all be recycled at any of our 27 locations throughout Fairfield County. Visit www.fairfieldrecycles.org for a complete list or contact us by phone: 740-681-4423.
